

# Let's make a model

Say we were interested in the dynamics of a new religious cult in a close-knit community.  
Under what conditions would *everyone* become a member of that cult?

- We sketch out the idea is 'pseudo-code'

to go

ask agents

[

spread-cult

self-reflection

]

end

to spread-cult

  If neighbours-are susceptible?

    Ask neighbours

      [set member? to true]

  end
